Production Alert: Limited Number of Permits to Be Issued for Malibu Sector Parks & Beaches Between June 24 and July 5, 2013

Due to vacation schedules and limited staffing, personnel overseeing Malibu Sector parks and beaches may not be able to accommodate “complex” shoots* between June 24th and July 5th, 2013.

Malibu Sector beaches include Malibu Lagoon to the east to Point Mugu to the west. Malibu Sector parks include Malibu Creek State Park, Leo Carrillo State Park, Tapia State Park and Malibu Pier State Park.

Productions requiring “simple” shoots** during that time period may file permit applications.

For “complex” shoots, call 818-880-0358 at any time to schedule holds for July 9th forward.

If you have any questions as to whether your shoot would be considered simple or complex, feel free to call State Parks Permit Coordinator, Helene Dervishian at 323-860-2960, ext. 106

***Complex** shoots involve a shooting company of 15 or more, large props or equipment, prop/replica weapons, generators, animals, SFX, pyrotechnics, aquatic activities, filming on or alongside park roads open to the public, night filming, filming in environmentally or historically sensitive areas, filming in a state historic park, driving vehicles on park service roads not open to the public and filming in high fire hazard areas.

****Simple** shoots are defined as having a maximum of 14 personnel (including cast, crew and extras) and using hand-held equipment (such as camera, tripod and reflectors) and small, hand-held props. Start and wrap times must occur during regular park hours (between 8 a.m. and sunset).
