

DATE: APRIL 26, 2013

**Production Alert: Summertime Filming Restrictions on Highway One in Portions of San Luis Obispo and Monterey Counties**

Please note that between May 24 and September 3, 2013, summer restrictions will be placed on filming activities on the segment of Highway 1 in San Luis Obispo and Monterey Counties between Carpoforo Creek (SLO-1-71.3) and San Jose Creek (Mon-1-71.2) near Carmel Highlands. Prohibited during this time period are all film requests for intermittent traffic control (ITC), rolling breaks or lane closures. The restricted area includes Bixby Bridge.

Caltrans District 5 has historically honored a summertime prohibition of any traffic control within this segment of Highway 1 at the request of Monterey County and the coastal communities. Any deviation from the prohibition would require both a Board Resolution by Monterey County and concurrence from the District 5 Traffic Manager.

Please contact Caltrans District 5 Permit Engineer Steve Senet at (805) 549-3206 or California Film Commission Permit Coordinator, David Booth, at 323.860.2960, extension104 with any questions.
